

FAMILY KINGDOM AMUSEMENT PARK RIDES

THRILL RIDES: Heart pounding excitement for the adventurous.

Hurricane: A park favorite, the Hurricane takes thrill-seekers speeding in circles on a hilly track. This ride served as the set for country music star Kenny Chesney's video "Anything But Mine."

Swamp Fox: The Swamp Fox wooden roller coaster has been a Myrtle Beach landmark since it opened in 1966. With 2800 feet of all-wooden track, this ride takes visitors on a thrilling trip, featuring an ocean view. This ride is named after Francis Marion, a revolutionary war hero who earned the nickname "Swamp Fox" for his ability to outwit and outrun British troops by hiding out in the swamps in the Pee Dee region.

Drop Zone: One of the newest rides at Family Kingdom, this ride features a 100-foot free fall. . . straight down.

Thunderbolt: Not for the faint-at-heart, the Thunderbolt sends those brave enough to climb aboard in high-speed circles in cars that swing from side to side.

Yo-Yo: This ride takes the concept of a swing to a new level. Riders reach heights and speeds sure to thrill.

GO-CARTS: For the speed demons among us.

Oval Track: On Family Kingdom's classic oval track, drivers can reach speeds of up to 17 miles per hour.

Figure-8 Track: The multiple turns on this track test drivers' skill as they speed around the two loops of the figure 8.

FAMILY RIDES: Side by side fun for the entire family.

Antique Cars: Family Kingdom guests can enjoy both electric and gas powered antique cars. The electric-powered cars take the passengers along a scenic track underneath the Swamp Fox roller coaster. The gas-powered cars require the driver to “step on the gas” to move around a track located at the base of the log flume.

Bumper Boats: This ride presents a couple of “hazards” to anyone wanting to stay dry! The boats are each equipped with water guns riders use to squirt each other. In addition, riders try to bump each other’s boats underneath the pool’s rain tree.

Carousel: Built in 1923 by the Philadelphia Toboggan Company, this classic carousel features horses cast from the manufacturer’s original molds.

Dodgem Bumper Cars: A park classic, the bumper cars offer up an opportunity to vent any pent-up “road rage” and to have great fun in the process.

Galleon: On the Galleon, riders get a sense of what it might feel like to be aboard a pirate ship on the high seas as it rocks fore and aft, higher and faster.

Giant Wheel: South Carolina’s largest Ferris wheel, featuring unique round gondolas, takes its riders to a height of 100 feet where they experience a panoramic view of Myrtle Beach and the Atlantic Ocean.

Log Flume: Built by O.D. Hopkins, this 1100-foot water ride is the only log flume on the Grand Strand.

Great Pistolero Round-up: A laser target shooting “dark ride,” the Pistolero was the first of its kind produced by the great American ride manufacturer Sally Corporation. Since this ride made its international debut at Family Kingdom, it has become very popular at parks around the nation.

Scrambler: An amusement classic, the Scrambler sends riders speeding in dizzying circles within circles.

Tilt-a-Whirl: This ride has been among the best-loved rides at fairs and parks for decades. As the Tilt-a-Whirl’s platform revolves, its cars spin randomly in different directions at variable speeds, a human-scale example of what mathematicians call “chaotic motion.”

Family Kingdom Locomotive: A park favorite for the entire family, Family Kingdom’s choo-choo toots its horn as it winds its way around the park and over scenic Withers Swash, the natural ocean inlet that runs through Family Kingdom.

KIDDIE RIDES: Amusement for our youngest guests.

4x4 Big Trucks: Kids love playing truck driver as they pretend to drive these pint-sized tractor-trailer trucks around an oval track.

Berry-Go-Round: Like the classic “teacup” ride, the berry lets kids turn a wheel in the center of their strawberry-shaped car to control how fast and in what direction their berry spins as the ride goes round and round.

Bumble Bee: The flight of the bumblebee. . . kid sized! Each bee flies up and down at the control of the child.

Canoes: Free-floating mini-canoes glide peacefully along a winding river, complete with a trip through a teepee.

Cycles: For daredevils in training, the kiddie cycles are model motorcycles that speed around a track popping wheelies along the way.

Hampton Combo: With a truck, a few motorcycles, a school bus, a sports car, and a fire engine to choose from, kids want to ride the Hampton Combo over and over.

Speedy Gonzalez Kiddie Coaster: The Speedy Gonzalez kiddie coaster delivers all the thrills of a big roller coaster, at kid-scale.

Mini Enterprise: On the Mini Enterprise kids steer a rocket ship into higher and lower orbits.

Kiddie Speedway: Little racecar drivers love these fast cars on an oval track, especially the extra thrill when the cars whip around the corners.

Kiddie Ferris Wheel: A child-sized version of the Big Wheel, kids get a kick out of looking down at their families from up high.

Mini Bumper Cars: Featuring cars themed as cats and mice, this ride gives kids free reign to drive like crazy.

Kiddie Swing: This ride is a smaller version of our Yo-Yo swing, and appeals to kids of all ages.

Red Baron: Kids can live out their dreams of being a World War I Flying Aces on the Red Baron ride, flying up and down while aiming vintage machine guns.

Wet Boats: A splashing good time for all kids, the wet boats travel in a circular water-filled canal.
